

**Customer information on Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer.**

**General information**

All DURAG GmbH products are developed and manufactured in accordance with the applicable regulations. To the best of our current knowledge, the products we supply to you do not contain any substances that are prohibited from being placed on the market.

We continuously check and pay attention with great care that none of our products violate the respective applicable law.

**OzDS, Montreal Protocol:**

Substances that lead to the depletion of the ozone layer (OzDS) are laid down in the Montreal Protocol via an international agreement. In the European Union this is regulated by Regulation (EC) No. 1005/2009 and in Switzerland by the Regulation ChemRRV SR 814.81. According to the information currently available based on the information provided by DURAG suppliers, DURAG does not use any of these substances in its products, nor have they been intentionally added.
