

Hamburg, June 2016

Product discontinuation of DURAG Furnace Sensor D-FS1

Dear valued customer,

for more than 10 years we have been marketing our Furnace Sensor product family D-FS1. Thank you for having chosen the D-FS1 in your company.

Herein we would like to inform you that the D-FS1 product family will be discontinued by December 31st, 2016. Should you need the D-FS1, you will be able to order it until November 15th, 2016.

It is the policy of DURAG GmbH to realize repairs, delivery of spares and wear and tear parts for the D-FS1 for a period of 10 years after the date of discontinuation. Also please note that the D-FS2 Furnace Sensor as successors are not downward compatible due to the switch from analog to digital cameras.

Successor product family D-FS2

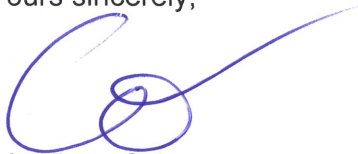

As successor product we introduced the D-FS2 to the market already in the end of 2015.

Features of the D-FS2

- Digital colour camera with 1280 x 960 pixels
- Use up to 2000 °C in the combustion chamber
- High speed 40 mm endoscope
- Expandable with D-VTA 200 thermography and analysis software
- Optional with retraction unit

For further information or if you have any questions please do not hesitate to contact us. The staff of our local sales offices will be pleased to advice you.

Yours sincerely,

i.A. Klaus Czirr
